04 **Integrated Ecosystem**

Synergy map and combined service offering

05 **Investment Opportunity**

Bankability, European access and international positioning

01

STRATEGIC CONTEXT AND GROUP VISION

APC Petroleum, C.A.

Integrated Industrial Energy Ecosystem

- Seven specialized companies operating in synergy across the energy, oil and gas, industrial engineering, civil and electrical construction, and technical services sectors.
- The founding company, Consorcio Paldaca, C.A., acts as the group's backbone, providing infrastructure, equipment and logistics support to all subsidiaries.
- Each company has a defined specialty and its own target market, eliminating internal competition and maximizing value to the client.
- This model mirrors the structure of major international industrial services conglomerates.
- International presence in Venezuela, Portugal (EU) and the United States.

7

Specialized Companies

Integrated under a single holding

03 COMPANY PROFILES · Operations in Venezuela

CONSORCIO PALDACA, C.A.

Engineering · Procurement · Construction

Founded: 2000

Core Services

- Full EPC project execution: process, mechanical, civil, piping, instrumentation, electrical
- Physical hub of the group: offices, workshop, warehouse, light and heavy equipment
- Anchor company providing infrastructure to every group entity
- Projects in the oil, petrochemical, energy, gas and industrial sectors

★ *The group company with full-cycle EPC capability*

INGENIERÍA COFER, C.A.

Civil Works · Electrical Works

Founded: 2005

Core Services

- Civil construction, design, renovations and construction management
- Electrical installations and services, service connections, mechanical and gas installations
- Steel structure fabrication (industrial sheds) and tank maintenance
- Structural design and remediation of structural defects

★ *Coverage of the residential, industrial and commercial sectors*

ORINOCO ENERGY, C.A.

Fiscal Metering · Instrumentation

Founded: 2018

Core Services

- Design and execution of fiscal metering projects for liquid and gas hydrocarbons
- Procurement and installation of flowmeters, transducers and SCADA systems
- Instrumentation engineering for the oil industry
- Supply of specialized technical personnel (professional technical assistance)

★ *Mature company with operational and commercial capability*

SERVICIOS Y SOLUCIONES API, C.A. (SSAPI)

Technical Inspection · API Standards · Well Testing

Founded: 2023

Core Services

- Inspection of API 653 tanks, API 510 pressure vessels and API 570 piping
- Predictive inspection of rotating equipment and failure mode analysis
- Well testing and sampling of liquid and gas hydrocarbons
- Over 50,000 engineering hours delivered with a proven track record

★ *International API 510 and API 653 certifications*

03 COMPANY PROFILES · Technology and International Entities

RELIATECH GLOBAL, C.A.

Industrial Reliability · Asset Management · Industry 4.0

Founded: 2026

Core Services

- RCM – Reliability-Centered Maintenance under ISO 55000
- Deployment of IIoT platforms for real-time industrial monitoring
- FMEA failure mode analysis and predictive inspections
- CMMS/EAM data taxonomy and proprietary software development

★ *High value-added company – scalable digital products*

TRADE ENERGY & SERVICES CO. (TESCO)

Procurement from the USA · International Trade

Founded: 2018 · United States

Core Services

- Import and export of industrial and energy products
- Specialized procurement of materials and equipment in the North American market
- Engineering and consulting for energy projects
- Future platform for Chevron/Shell contracts under OFAC compliance

⚠️ **OFAC-compliant operations only**

★ *U.S. legal entity ready for post-sanctions expansion*

KINETIC SCALE PROJECTOS, LDA. (KSP)

European Gateway · EU Financing · Import and Representation

Founded: 2022 · Mealhada, Portugal

Core Services

- EU-domiciled entity: access to European banking and financing
- Group representative before European suppliers and investors
- Strategic alliances with technology suppliers (DL Services BV, Endress+Hauser, Pietro Fiorentini, Siemens, etc.)
- Import channel for materials and technology into Venezuela

★ *Key to European financing – not subject to OFAC restrictions*

04 INTEGRATED ECOSYSTEM · Synergies and Value Chain

Company	Specialty	Main Market	Key Contribution to the Group
Consorcio Paldaca, C.A.	Engineering, Procurement and Construction	Oil, Petrochemical, Energy, Gas and Industrial Sectors	Logistics hub, equipment and full EPC execution for all group projects
Ingeniería COFER, C.A.	Civil and Electrical Works: Construction, Installations and Steel Structures	Industrial, Commercial and Residential Sectors	Civil and electrical works execution; diversifies the group into non-oil markets
Orinoco Energy, C.A.	Supply of Hydrocarbon Fiscal Metering Equipment and Process Instruments	Oil Industry / Measurement and Control	Instrumentation, supply of specialized technical personnel
Servicios y Soluciones API, C.A. (SSAPI)	API Inspections of Static Equipment, Predictive Inspections of Rotating Equipment, Well Testing and Sampling	Oil, Petrochemical and General Industry	Technical certification, API standards, inspection–reliability bridge
ReliaTech Global, C.A.	Industrial Reliability, Asset Management and Industry 4.0	Oil, Petrochemical, Mining and General Industry	Digital intelligence, ISO 55000, software development
Kinetic Scale Projectos, Lda. (KSP)	Procurement with Strategic Partners and EU Financing Management	EU Suppliers / European Banking	Access to European financing, technology imports, international credibility
Trade Energy & Services Co. (TESCO)	Procurement and Trade from the USA	North American and LATAM Markets	Access to the U.S. market and technology in full OFAC compliance

🏗️ **Build**
Paldaca executes the physical works

🏢 **Construct**
COFER delivers civil and electrical works

🔬 **Certify**
SSAPI validates to API standards

📡 **Measure**
Orinoco Energy ensures fiscal accuracy

⚙️ **Optimize**
ReliaTech delivers Reliability 4.0

🌍 **Finance**
KSP opens access to European capital

🔗 **Trade**
TESCO connects global markets

05 INVESTMENT OPPORTUNITY · International Positioning and Bankability

Why invest in or partner with APC Petroleum, C.A.?

🔧 Comprehensive Industrial Capability

EPC + Civil and Electrical Works + Inspection + Reliability + Metering — under a single holding.

🌍 Multi-Jurisdictional Presence

Operations in Venezuela with corporate vehicles in the EU (Portugal) and the USA for international contracting.

💶 Access to European Financing

KSP (Portugal) provides access to European bank lending under internationalization schemes — not subject to OFAC.

📈 Market Momentum in Venezuela

Oil sector reactivation underway. Record demand for inspection, metering and reliability.

⚡ Technological Advantage

ReliaTech Global brings Industry 4.0 / IIoT capabilities that are scarce in the Venezuelan market — scalable regionally.
